HEARING RESEARCH

Contents of Volume 99

Research Papers

C.G.D. Dais, J. Prazma, S.S. Ball, C. Zdanski, V. Carrasco and H.C. Pillsbury, III *(USA)*
Effect of sodium nitroprusside on compound action potential thresholds in the gerbil cochlea 1

I. Magovcevic, E.L. Berson and C.C. Morton *(USA)*
Detection of cone alpha transducin mRNA in human fetal cochlea: negative mutation analysis in Usher syndrome 7

R.S. Heffner, G. Koay and H.E. Heffner *(USA)*
Sound localization in chinchillas. III: Effect of pinna removal 13

W.-J. Kong, T. Ren and A.L. Nuttall *(USA, China)*
Electrophysiological and morphological evaluation of the acute ototoxicity of sodium nitroprusside 22

S.M. Vlajkovic, P.R. Thorne, D.J.B. Muñoz and G.D. Housley *(New Zealand)*
Ectonucleotidase activity in the perilymphatic compartment of the guinea pig cochlea 31

C. Mitchell, J.B. Kempton, T. Creedon and D. Trune *(USA)*
Rapid acquisition of auditory brainstem responses with multiple frequency and intensity tone-bursts 38

B. Kuhn and M. Vater *(Germany)*
The early postnatal development of F-actin patterns in the organ of Corti of the gerbil *(Meriones unguiculatus)* and the horseshoe bat (*Rhinolophus rouxi*) 47

M.A. Gratton, B.A. Schulte and D.J. Hazen-Martin *(USA)*
Characterization and development of an inner ear type I fibrocyte cell culture 71

P. Mandava, A.L. Rupert and G. Moushegian *(USA)*
Inferior colliculus neuronal responses to masking-level-difference stimuli 79

C.M. Henley, R.A. Weatherly, C.-N. Ou and R.D. Brown *(USA)*
Pharmacokinetics of kanamycin in the developing rat 85

L.M. Nitecka and H.M. Sobkowicz *(USA)*
The GABA/GAD innervation within the inner spiral bundle in the mouse cochlea 91

E. Laffon and E. Angelini *(France)*
On the Deiters cell contribution to the micromechanics of the organ of Corti 106

H.A. Beveridge and R.P. Carlyon *(UK)*
Effects of aspirin on human psychophysical tuning curves in forward and simultaneous masking 110

J.A. Clark and J.O. Pickles *(UK, Australia)*
The effects of moderate and low levels of acoustic overstimulation on stereocilia and their tip links in the guinea pig 119

S. Rinkwitz-Brandt, H.-H. Arnold and E. Bober *(Germany)*
Regionalized expression of *Nkx5-1*, *Nkx5-2*, *Pax2* and *sek* genes during mouse inner ear development 129

P.J. Blamey, G.J. Dooley, E.S. Parisi and G.M. Clark *(Australia)*
Pitch comparisons of acoustically and electrically evoked auditory sensations 139

K.R. Henry *(USA)*
Auditory nerve neurophonic produced by the frequency difference of two simultaneously presented tones 151

K.R. Henry *(USA)*
Tuning curves of the difference tone auditory nerve neurophonic 160

S. Carlson and J.F. Willott *(USA)*
The behavioral salience of tones as indicated by prepulse inhibition of the startle response: relationship to hearing loss and central neural plasticity in C57BL/6J mice 168

L.F. Hao and S.M. Khanna *(USA)*
Reissner's membrane vibrations in the apical turn of a living guinea pig cochlea 176

Letters to the Editor

M.D. McGinn, I.R. Schwartz, S.C. Chamberlain and H.F. Voigt *(USA)*
Regarding Boettcher et al. (Hearing Research, 87 (1995) 208-219) 190

F.A. Boettcher, D.R. White, J.H. Mills and B.N. Schmiedt
Response to McGinn et al. 192
